HU-FRIEDY NATIONAL PROMOS

CROATIA 2018

Valid from 12th February to 31st December 2018

Prices are without PDV 25%

For more information about Hu-Friedy's Total Solutions visit HU-FRIEDY.EU
©2018 Hu-Friedy Mfg. Co., LLC. All rights reserved.
Since 1908, Hu-Friedy has been putting the highest quality and most innovative dental products in the hands of dental professionals worldwide. And today as one of the world’s leading dental instrument and product companies we continue our commitment to advance dental performance by supporting these products with world class service, education and peer communities. We’re committed to making sure the best perform that way.

A WORLDWIDE FOCUS ON QUALITY

Hu-Friedy is based in Chicago and has been privately owned by the Saslow family since 1958. Today we employ over 700 talented and committed employees with a sales force covering more than 25 countries – including international offices and distribution centers in Milan, Frankfurt, Shanghai, Tokyo and Tuttlingen.

NEW EVEREDGE® 2.0
THE MOST ADVANCED SCALER EVER

WHY EVEREDGE® 2.0

What will the newest, most advanced, sharpest and longest-lasting scaler on the market do for you?
Help you perform better than ever...

STAYS SHARPER EVEN LONGER
EverEdge 2.0 uses a new, optimized heat control process in order to maintain the hard, sharp edge. This heat control, plus several manufacturing intricacies in Hu-Friedy’s proprietary process, provide the durability needed for effective procedures and continued use.

UNCOATED PERFORMANCE
Similar to the original EverEdge technology, our proprietary processing ensures that the superior edge retention & wear characteristics of EverEdge 2.0 will last the entire life of the instrument. Since it’s not a superficial coating, these characteristics can’t be sharpened or scraped away. EverEdge 2.0 scalers can be resharpened at any point to extend their life.

REVOLUTIONARY TESTING SYSTEM
Hu-Friedy has invested in a custom blade evaluation system to ensure clinicians are receiving the sharpest possible instruments. Blades from every batch of EverEdge 2.0 are tested right off the factory line to confirm that the sharpness value remains in our target range, averaging 5 newtons of force required to cut the test material.

NEW FINELY-HONED FINISH
EverEdge scalers are sharp...EverEdge 2.0 scalers are even sharper. Using an enhanced finishing process, Hu-Friedy’s professional artisans are creating edges that are scientifically measured to be over 60% sharper than the next closest competitor. Less force means easier, more comfortable scaling for the clinician and patient.

DIAMOND KNURL METAL HANDLE
The same EverEdge handle you love! The unique diamond knurl pattern on the large diameter handle provides a confident and comfortable grasp. The #9 EverEdge handle was also designed to be the optimal weight for reduced hand fatigue.

CUTTING-EDGE CLINICAL SOLUTIONS
CHECK OUT WHAT’S NEW IN HU-FRIEDY FAMILY!

For more than one hundred years, Hu-Friedy has led the dental industry through technological innovation.
We consistently collaborate with research centers, universities, and key opinion leaders to understand the emerging needs of practitioners, to stay at the forefront of the latest dental technologies and methodologies, and to develop new and ever-better products.

For more than one hundred years, Hu-Friedy has led the dental industry through technological innovation.

We consistently collaborate with research centers, universities, and key opinion leaders to understand the emerging needs of practitioners, to stay at the forefront of the latest dental technologies and methodologies, and to develop new and ever-better products.

CUTTING-EDGE CLINICAL SOLUTIONS
CHECK OUT WHAT’S NEW IN HU-FRIEDY FAMILY!

For more than one hundred years, Hu-Friedy has led the dental industry through technological innovation.
We consistently collaborate with research centers, universities, and key opinion leaders to understand the emerging needs of practitioners, to stay at the forefront of the latest dental technologies and methodologies, and to develop new and ever-better products.
NEW EVEREDGE® 2.0
THE MOST ADVANCED SCALER EVER

EVEREDGE 2.0 is 72% sharper out of the box than the next closest competitor

And after 500 strokes it’s...

63% Sharper than American Eagle
56% Sharper than LM-Dental

WHY DO SOME INSTRUMENTS GET SHARPER AFTER SEVERAL USES?

When there is a spike in sharpness, that is due to the burr formation on the product. A burr is a small flap of metal that actually covers the instrument’s blade. Burr formations occur when the finishing step is done too quickly – an indication of poor process control. EverEdge 2.0 scalers do not have a burr formation due to our refined process and techniques.

HOW EVEREDGE® 2.0 TECHNOLOGY COMPARES AGAINST COMPETITORS

WHO TESTED THE INSTRUMENTS?

Independent testing was conducted by CATRA, a specialized blade laboratory. They evaluated Hu-Friedy EverEdge scalers alongside four competitors’ instruments.

HOW WERE THE INSTRUMENTS TESTED?
The blade of each instrument was tested by repeatedly pushing it into a specially calibrated silicone test strip. The amount of force required to push the blade into the test media was measured in Newtons, a common international unit used to measure tension and shear force. The less force required to penetrate the media indicates a sharper blade. The blades of each instrument were also subjected to multiple strokes on the same calibrated test strip to simulate wear. These repeated strokes will begin to reduce the sharpness of the blade and therefore require more force to enter the test strip. After a predetermined amount of strokes is applied, the force to make the final cut is measured to determine the sharpness durability of the blade.

Valid for all EverEdge 2.0 Range*

**NEW TITANIUM IMPLANT SCALERS**

**PERFORM AT YOUR BEST** with Hu-Friedy’s new, state of the art line of Titanium Implant Scalers. Made from the same titanium alloy as implants and abutments, these scalers are expertly designed and manufactured for implant maintenance, debridement, biofilm removal and can be used both supra and subgingival.

- **Improved visual acuity** with Hu-Friedy’s signature Teal colored Anodized Titanium
- **Optimized sharpness** with cutting edges that are finely honed and sharpened post Anodization process
- **Enhanced instrument characteristics** for implant maintenance with the ability to remove calculus and biofilm
- **Increased instrument value** with the ability to be sharpened at any time to extend the useful life of the instrument
- **Ergonomic sensitivity** featuring our Ergo handle that offers a large diameter and cross/hatch design for maximum tactile grip and support

NEW BLACK LINE SWISS PERIO INSTRUMENTS

PERIOSTEALS

FEATURES AND BENEFITS

SPECIFIC DESIGNED INSTRUMENTS
- Less tissue trauma by refined working ends;
- Ultimate manufacturing tolerances for precise handling;
- Easy to clean.

BLACK LINE EXTENSION
- More contrast between the instrument and the tissue;
- Avoid light reflection;
- More sharpened than standard.

BALANCED WEIGHT
- More control and precision in specific and delicate microsurgery procedures.

DID YOU KNOW?

All hinged instruments – forceps, rongeurs, scissors, pliers, hemostats, orthodontic pliers, etc. – should be kept lubricated. Regular use of proper lubricants, like Hu-Friedy Penetrating Oil (IPS) and Instrument Lubricant Spray (ILS), will prevent rust, corrosion and stiff joints to ensure smooth operation. All hinged instruments should be sterilised in the open position.

---

**DID YOU KNOW?**

All hinged instruments - forceps, rongeurs, scissors, pliers, hemostats, orthodontic pliers, etc. – should be kept lubricated. Regular use of proper lubricants, like Hu-Friedy Penetrating Oil (IPS) and Instrument Lubricant Spray (ILS), will prevent rust, corrosion and stiff joints to ensure smooth operation. All hinged instruments should be sterilised in the open position.

INSTRUMENT MANAGEMENT SYSTEM AND INFECTION PREVENTION

CHOOSE TO WORK SMARTER, NOT HARDER

Hu-Friedy’s Instrument Management System is the most comprehensive, reliable, and complete instrument processing and infection control system on the market today. IMS combines sterilisation, storage and organization of instruments in one integrated system.

Hu-Friedy’s IMS system allows you to focus on your patients rather than wasting valuable time looking for the instruments to complete a procedure.

INNOVATION BY OUR KEY OPINION LEADERS

The collaboration of the most influential dental professionals along with our world class team of engineers working together to develop the products of the future is the secret of our continuous innovation that, combined with the talents of our team, allows us to anticipate the needs of our customers in every country and build a customised solution, unique to their individual requirements.

OUR KEY OPINION LEADERS

DIETSCHI COMPOSCLUMP INSTRUMENTS • DR. DIDIER DIETSCHI

Didier Dietschi, D.M.D., PhD, received his license in 1984 and his DMD degree in 1988 from the University of Geneva. He earned a PhD degree in Biomaterials Science in 2003, from the ACTA University in Amsterdam, Netherlands. As of January 2004, Dr. Dietschi is Privat Docent at the University of Geneva. He has served since 1984 as assistant, senior assistant, senior lecturer and co-director in the Department of Operative Dentistry and Endodontics. Since 2005, he has been adjunct professor in the department of Comprehensive Care at CASE Western University in Cleveland, Ohio. Dr. Dietschi also maintains a private office dedicated to restorative aesthetic dentistry in Geneva. Dr. Dietschi has written more than 70 clinical and scientific articles and chapters for books on the topic of adhesive dentistry. He co-authored the book “Adhesive Metal-free Restorations”, published by Quintessence and translated into 7 languages. He is also on the editorial board of several international scientific journals. Dr. Dietschi is an internationally acclaimed speaker and has given hundreds of lectures worldwide.

Hu-Friedy offers reliable, high quality composite instruments that save time during chairside procedures, resulting in accurate and excellent restorations and patient satisfaction.

EXTENDING YOUR INSTRUMENTS LIFE

Our newly upgraded technical care center, based in our facilities in Tuttlingen, further increases our goal of maximising the useful life of our instruments. This post-sale service allows dental professionals to ensure their instruments always perform at their best and for the longest time possible.

TECHNICAL CARE CENTER

WHAT CAN WE DO FOR YOU?

Your dedicated craftsmanship provides you with a full set of services to extend instruments life performance.

SHARPENING

RE-SERRATING

JOINT REALIGNMENT

CARBIDE INSERT REPLACEMENT (UP TO THREE REPLACEMENTS)

HOW IT WORKS?

1. ASSESSMENT (ANALYZING)
2. MAINTENANCE (REPAIR AND REFURBISHING)
3. PERSONALISATION (OPZIONALE)
4. FINAL INSPECTION (QUALITY ASSURANCE)

EXTENDING YOUR INSTRUMENTS LIFE
### TECHNICAL CARE CENTER

#### SERVICE | CODE
--- | ---

Instruments, double ended; resharpen | SHGEN2
Micro scissors, Rework and refurbishment | SHSCISMICRO
Standard scissors, Rework and refurbishment | SHSCIS
Scissors (TC or SC), Rework and refurbishment | SHSCISTC
Dressing pliers, Rework and refurbishment | DPGEN
Tissue Pliers (Micro or TC), Rework and refurbishment | TPMICRO

### EXTENDING YOUR INSTRUMENTS LIFE!

#### SHARPENING
Instruments should be kept sharp and true to their original design. Dental procedures are most effective when using sharp instruments because they reduce fatigue, improve deposit removal, save time, enhance tactile sensitivity, and minimize patient discomfort.

#### PREPARATION
Our experienced service team in Tuttlingen checks, repairs and upgrades your Hu-Friedy instruments.

#### MAINTENANCE
Regular maintenance extends your instruments life, improves reliability and ensures highest comfort and safety for patient and user.

#### CUSTOMIZATION
You can choose to customize your instrument, engraving the name of your office, its logo, or more simply, by procedural kit, making them easily identifiable for you and your team. Our laser marking technology allows our Technical Care Center Team to offer this.
